COTTON LITERATURE is compiled mainly from material received in the Library of the U. S. Department of Agriculture.

Copies of the publications listed herein can not be supplied by the Department except in the case of publications expressly designated as issued by the U. S. Department of Agriculture. Books, pamphlets, and periodicals mentioned may ordinarily be obtained from their respective publishers or from the Secretary of the issuing organization. Many of them are available for consultation in public or other libraries.

PRODUCTIONFotany

Naftel, J. A. The absorption of ammonium and nitrate nitrogen by various plants at different stages of growth. American Society of Agronomy Journal, v.23, no.2, Feb.1931, p.142-158. illus. (Published at Geneva, N.Y.)

Experiments with cotton seedlings.

Phillis, E. Cotton notes. Tropical Agriculture, v.8, no.2, Feb.1931, p.36-37. (Published at the Imperial College of Tropical Agriculture, St. Augustine, Trinidad, West Indies)

"Transport of nitrogenous substances in the cotton plant," by Mason and Maskell, is summarized.

Genetics

Dunkle, P.B. Varieties of cotton for North Texas. College Station, Texas, 1930. 31p. (Texas Agr. Exp. Sta. Bul. 417)

Hamilton, R.W. The cotton contest--1930. For better yield and staple value. Clemson College, S.C., 1931. 24p. illus. (Clemson Agr. Col. Ext. Circ. 110)

Indian science congress. Proceedings, v.17, 1930. Calcutta, India, Asiatic Society of Bengal, 1930. 539p.

The growth of the cotton plant in India, II-IV, by R.S.Inamdar, and B.N.Singh. (Abstract): p.45-48.

Classification of Indian cottons, by G.L.Kottur. (Abstract): p.44.

Disturbing factors in flowering and fruiting capacity of the cotton plant in United Provinces, by B. Ram Prasad. (Abstract): p.43-44.

The growth of the cotton plant in India, V, by B.N.Singh. (Abstract): p.49-50.

Improvement of Sind deshi cotton, by K.I.Thadani and B.B.Mulchandani. (Abstract): p.44.

Jackson, A.D. Yield and staple length more important than gin turnout. Oil Miller and Cotton Ginner, v.37, no.6, Feb.1931, p.16. (Published at 161 Spring st., N.W., Atlanta, Ga.)

Factors to be considered in selecting varieties for planting.

- Kearney, T.H. Principles of plant breeding as applied to cotton. (In Documentary material on the Inter-American conference on agriculture, forestry and animal industry, Washington, D.C., September 8 to 20, 1930, p.243-249)
- Kime, P.H., and Kirby, S.J. Results of cotton variety experiments for 1927-30 and production and consumption of different staple lengths. Raleigh, N.C., 1931. 6p. mimeographed. (N.C.Agr. Col. Agron. Inform. Circ.57)
- Moore, J.H., and Shanklin, J.A. Source and care of cotton-planting seed on some North Carolina farms in relation to length of staple produced. Raleigh, N.C., 1931. 10p. mimeographed. (N.C.Agr. Col. Agron. Inform. Circ. 58)
- Pomeroy, H.L. Good seed makes high cotton yields possible. California Cultivator, v.76, no.8, Feb.21, 1931, p.215. (Published at Los Angeles, Calif.)
- Tisdale, H.B., and Williamson, J.T. Results of cotton variety tests in Alabama for the period 1926-1930, inclusive. Auburn, Ala., 1931. 7p. mimeographed. (Ala. Agr. Exp. Sta.)

Agronomy

- Field results indicate value of ammoniated superphosphate for cotton. Phosphorus Digest, Feb.1931, p.2-6. illus. (Published by Superphosphate Institute, Washington, D.C.)
- Grieder, A. A adubacao potassica complementar do algodoeiro. Boletim de Agricultura, Zootechnia e Veterinaria, v.3, no.3/4, Mar./Apr.1930, p.13-22. (Published by Secretaria da Agricultura, Industria, Terras, Viacao e Obras Publicas, Bello Horizonte, Minas Geraes, Brazil)
Potash fertilizer for cotton.
- Hawkins, R.S. Field experiments with cotton. Tucson, 1930. 553-581p. (Arizona Agr. Exp. Sta. Bul. 135)
- India. Central Provinces and Berar. Dept. of agriculture. Report 1928/29. Nagpur, India, Govt.press, 1930. 57p.
Report of the economic botanist for cotton upon the work done in the Central Provinces and Berar

during the year 1928-29, by W. Youngman: p.35-39.

Killough, D.T. Relation of soil fertility to quality cotton. Farm and Ranch, v.50, no.7, Feb.14, 1931, p.4,13. (Published at 3306 Main st., Dallas, Texas)

"There is very little difference in the length of staple of the same variety grown in the different regions on uplands which grow the principal part of the Texas cotton crop. Also it appears that the use of fertilizers on the sandy soils of Eastern Texas had no appreciable effect on length of lint, but at Angleton, on the black prairie soils which are deficient in phosphoric acid, the application of fertilizers containing phosphoric acid increased the length of the staple on the average 1/16 inch."

Paul, W.R.C. Cotton cultivation in the Hambantota district. Tropical Agriculturist, v.75, no.6, Dec. 1930, p.375-383. (Published by the Department of Agriculture, Peradeuiya, Ceylon)

Williams, C.B. Composition of fertilizer affects maturity of cotton. Phosphorus Digest, Feb.1931, p.9-10. illus. (Published by Superphosphate Institute, Washington, D.C.)

Insects

Costa Lima, A.de. Uma nova praga do algodoeiro no nordeste do Brasil. O Campo, v.1, no.9,1930,p. 12-13. illus. 3 refs. (Published in Rio de Janeiro, Brazil)

A new pest of cotton (*Ferrisia virgata*, Ckll.) in the Northeast of Brazil.

Golding, F.D. Cotton pests in Nigeria. Tropical Agriculture, v.8, no.2, Feb.1931, p.28-29. (Published at the Imperial College of Tropical Agriculture, St. Augustine, Trinidad, West Indies)

Neal, David C. Cotton diseases and their control. (In Documentary material on the Inter-American conference on agriculture, forestry and animal industry, Washington, D.C., September 8 to 20, 1930, p.251-255)

Farm Engineering

Gyrator cotton-picker. Melliand Textile Monthly, v.2, no.11, Feb.1931, p.1488-1489. (Published by the Melliand, inc., Woolworth Bldg., New York N.Y.)

"It is claimed for the machine that one acre of cotton may be picked in one hour, regardless of the poundage of cotton to the acre."

Production Credit

Brehm, C.E. Making cotton a cash crop instead of a credit crop. Extension Service Review, v.2, no.2, Feb.1931, p.27-28. (Published by the Extension Service, U.S.Dept. of Agriculture, Washington, D.C.)

Outline of a program by which it will be possible to grow cotton as a cash crop.

Cooperation in Production

Richardson, T.C. Something new under the sun. Farm and Ranch, v.50, no.2, Jan.10,1931, p.10-11. (Published at 3306 Main st., Dallas, Texas)

"Cottonseed co-operative for distributing Texas state certified seed cuts cost to farmer."

PREPARATIONGinning

Antiquated grasshopper cotton gin press still in use in gin built in gay nineties. Cotton Ginners' Journal, v.2, no.5, Feb.1931, p.9. (Published by the Texas Cotton Ginners' Association, inc., Dallas, Texas)

Burges, Austin E. All operations in Lummus 1931 model gin plant at Dallas visible thru glass. Cotton and Cotton Oil News, v.32, no.7, Feb.14,1931, p.7,11. (Published at Dallas, Texas)

Mullis, Rex E. Murray company perfects new cotton distributor. Cotton and Cotton Oil News, v.32, no.7, Feb.14,1931, p.2. (Published at Dallas, Texas)

Smith, Howard C. What was done at the Birmingham convention. Oil Miller and Cotton Ginner, v.37, no.6, Feb.1931, p.17-18. (Published at 161 Spring st., N.W., Atlanta, Ga.)

The sixth annual meeting of the Alabama Ginners' Association held at Birmingham, Alabama, January 8, 1931.

Baling

Haynie, H.G. Cotton compress official urges importance upon ginners of eliminating rolling bales. Cotton Ginners' Journal, v.2, no.5, Feb.1931, p.6. (Published by the Texas Cotton Ginners' Association, inc., Dallas, Texas)

"Best interests of ginners and compress firms will be conserved by co-operation on part of both, it is declared--believed farmers will not long tolerate gins that put out rolling bales because of injury to sample."

List of cotton pressing factories with names of owners and particulars of marks allotted to them in the different provinces of British India and certain Indian states for the season 1930-31. Indian Trade Journal, v.99, no.1276, Dec.4,1930, Supplement, 30p. (Published by the Department of Commercial Intelligence and Statistics, Calcutta, India)

Use of round bale strongly advocated by Manufacturers Record as a needed remedy. Cotton Ginners' Journal, v.2, no.5, Feb.1931. (Published by the Texas Cotton Ginners' Association, inc., Dallas, Texas)

MARKETING

General

Dabney, Thomas Ewing. Cotton economists resent Government interference. Manufacturers Record, v.99, no.5, Jan.29,1931, p.26. (Published at Commerce and Water Streets, Baltimore, Md.)

Summary of a statement by the economics committee of the American Cotton Shippers Association regarding the present situation in the cotton market.

Texas cotton committee...Meeting, January 27, 1931, Houston, Texas, 9 a.m. Austin, Texas, Bureau of Business Research, University of Texas, 1931. irreg. paging.

Partial contents: The Texas cotton committee, by A.B.Cox; Foreign competition, by A.B.Cox; World cotton movements, by Ernest L. Tutt; Problems of foreign competition from exporters view point, by M.H.Reed; The struggle for the world's cotton markets, by W.L.Clayton; Methods for the improvement of the quality and yield of cotton--India, by A.B.Cox; New uses of cotton, by Victor H. Schoffelmayer; A pure seed program for the improvement of the Texas cotton crop, by E.P.Humbert; Discussion of grade and staple estimates project and staples grown in the United States, by John T. Egan.

U.S. Dept. of agriculture. Bureau of agricultural economics. The agricultural outlook for 1931. Washington, D.C., 1931. 91p. (Misc. Pub. 108)
Cotton: p.62-65.

Demand and Competition

Alderfer, Evan B. The textile industry of China. American Academy of Political and Social Science. Annals, v.152, Nov.1930, p.184-190. (Published at Philadelphia, Pa.)

Includes a description of the manufacture of cotton goods and a comparison of the Chinese and Japanese cotton industry.

American spinners' scheme. Textile Weekly, v.6, no. 152, Jan.30,1931, p.548-550. (Published at 48 Deansgate, Manchester, England)

Scope of the Cotton Spinners' Scheme, 1931, proposed to members of the American section of the Master Cotton Spinners' Associations, Manchester.

Annual textile market outlook. Mill curtailment offsets cotton price drop. Textile World, v.79, no.6, Feb.7,1931, p.651-654. charts. (Published by Bragdon, Lord & Nagle Company, Tenth Ave. at 36th st., New York, N.Y.)

Are foreign markets closed to American cotton?

Russia, Egypt, India, Brazil and other cotton producing countries are increasing their acreage because of Farm Board operations--World outlets for American cotton are closing. Who is Who in Grain and Feed, v.20, no.8, Feb.20,1931, p.27-28. (Published by Grain and Feed Dealers National Association, 320-323 Gardner Bldg., Toledo, Ohio)

The cotton industry in 1930. Textile Recorder, v.43, no.574, Jan.15,1931, p.22-23. (Published at 121, Deansgate, Manchester, England)

Cotton piece-goods trade in 1930. Textile Weekly, v.6, no.150, Jan.16,1931, p.493, 500. (Published at 49 Deansgate, Manchester, England)

The cotton trade in 1930. Slump in prices and restricted trade. Far-reaching proposals for reorganization. Textile Argus Annual Review, Jan.20,1931, p.22. (Published by Textile Argus Ltd., Commerce House, Cheapside, Bradford, England)

Cox, A.B. Too much politics and too little economics. Cotton Trade Journal, v.2, no.5, Jan.31,1931. p.6, col.3-5. (Published at Cotton Exchange Bldg., New Orleans, La.)

Discusses foreign competition and suggests "five important remedies for the cotton situation."

Crédit foncier égyptien. The cotton position. Near East and India, v.39, no.1029, Feb.5,1931, p.174-175. (Published at 170, Strand, London. W.C.2, England)

Translation of the report of the Crédit Foncier Egyptien which was presented to the shareholders at the annual general meeting, held at Cairo on Jan.14,1931.

Dall, William B. Export cooperation for expansion of foreign trade. Textile World, v.79, no.6, Feb.7,1931, p.590. (Published by Bragdon, Lord & Nagle co., Tenth ave. at 36th st., New York, N.Y.)

Discusses developments under the Webb-Pomerene law.

Das, Rajani Kanta. Labour legislation in India. Indian Textile Journal, v.41, no.483, Dec.31, 1930, p.120-122. (Published at Military Square, Meadows st., Fort, Bombay, India)

Includes review of the legislation affecting cotton mill labor.

Decks being cleared for action, statistics of textile industry reveal. Textile World, v.79, no.6, Feb.7, 1931, p.572-575. charts. (Published by Bragdon, Lord & Nagle co., Tenth ave. at 36th st., New York, N.Y.)

Review of 1930. Includes charts showing general textile index, 1928-1930, and cotton prices, cotton cloth and yarn production and stocks, and spindle activity, 1928-1930.

Dietrich, E.B. Lancashire breaks with tradition: the more-looms-to-a-weaver controversy. Barron's, v.11, no.6, Feb.9, 1931, p.5. (Published at 30 Kilby st., Boston, Mass.)

Fitzgerald, H.R. Danville attitude toward its labor problem. Textile World, v.79, no.5, Jan.31, 1931, p.426. (Published by Bragdon, Lord & Nagle co., Tenth ave. at 36th st., New York)

Contains extracts from Mr. Fitzgerald's (president's) report to stockholders of the Riverside and Dan River Cotton Mills, January 22, 1931.

Garside, Alston H. Domination of American cotton threatened by gain in volume and quality of foreign cottons. Textile World, v.79, no.6, Feb.7, 1931, p.614-615. illus. (Published by Bragdon, Lord & Nagle co., Tenth ave. at 36th st., New York, N.Y.)

Hamlin, Scoville, ed. The menace of overproduction; its cause, extent and cure. New York, John Wiley & Sons, inc., 1930. 202p.

Factors in restoring equilibrium to the cotton textile industry, by Henry P. Kendall: p.22-26.

Haney, Lewis H. Textiles likely to lead business recovery. Textile World, v.79, no.6, Feb.7, 1931, p.578-581. charts. (Published by Bragdon, Lord & Nagle co., Tenth ave. at 36th st., New York, N.Y.)

Kean, Arthur. The "English cotton crisis." Fibre and Fabric, v.84, no.2401, Feb.7, 1931, p.17-18. (Published at 465 Main st., Kendall Square, Cambridge, Mass.)

Maultsby, Ralph C. Southern employer-employee relations. Textile World, v.79, no.6, Feb.7, 1931, p.594-595. (Published by Bragdon, Lord & Nagle co., Tenth ave. at 36th st., New York, N.Y.)

New customs tariff in China: the cotton schedule. Textile Weekly, v.6, no.152, Jan.30,1931, p.553-554. (Published at 49 Deansgate, Manchester, England)

Sanford & Kelley. Cotton mill trends in 1930. More liquidation and readjustment in New England--Pepperell's progress outstanding--constructive efforts of Berkshire, United Merchants and Newman. American Wool and Cotton Reporter, v.45, no.5, Jan.29, 1931, p.11-12,21. (Published by Frank P. Bennett co., inc., 530 Atlantic ave., Boston, Mass.)

"Shyam-Sundir." The textile industry in Ahmedabad: a historical review. Indian Textile Journal, v.41, no.483, Dec.31, 1930, p.114-116. (Published at Military Square, Meadows st., Fort, Bombay, India)

Sloan, George A. New attitude in cotton industry inspires confidence for 1931. Textile World, v.79, no.6, Feb.7, 1931, p.584. (Published by Bragdon, Lord & Nagle co., Tenth ave. at 36th st., New York, N.Y.)

Tariff effects obscured by world conditions. Textile World, v.79, no.6, Feb.7, 1931, p.591. (Published by Bragdon, Lord & Nagle co., Tenth ave. at 36th st., New York, N.Y.)

Tables show imports of textile manufacturers before and after the tariff went into effect on June 18, 1930.

Woolf, Douglas G. Move to eliminate night work for women and minors outstanding 1930 accomplishment. Textile World, v.79, no.6, Feb.7,1931, p.582-583. (Published by Bragdon, Lord & Nagle co., Tenth ave. at 36th st., New York, N.Y.)

Supply and Movement

Garrett, J.E. Cotton--an asset or a liability? Commerce and Finance, v.20, no.6, Feb.11, 1931, p.268. (Published by Theodore H. Price Publishing Corporation, 95 Broad st., New York, N.Y.)

"Cut the acreage." Mr. Garrett is president of the Southern Cotton Reduction Association.

Lancastrian. American cotton prospects in 1931-32. Manchester Guardian Commercial, v.22, no.551, Jan.8, 1931, p.27. (Published at the Guardian Bldg., Manchester, England)

"Probable changes in acreage, yield, average price."

Lanham, W.B., and Betts, R.E. Quality of cotton produced in North Carolina--crops of 1928 and 1929. Washington, D.C., 1930. 14p.

A preliminary report.

Manchester cotton association, ltd. Protective committee. Report...Cotton importations to Manchester. Season 1929-30. Manchester, 1930. 27p.

Roxas, M.L. Cotton in the Philippines. Sugar News, v.12, no.1, Jan.1931, p.42-47. (Published at 671 Dasmarina, P.O.Box 514, Manila, P.I.)

Prices

Slater, W.H. Forecasting raw cotton prices. Textile Manufacturer, v.57, no.673, Jan.1931, p.13-15. (Published by Emmott & Co., ltd., 65, King st., Manchester, England)

Lecture at Oldham before the Oldham Technical Association on January 10, 1931.

Also in the Textile Weekly, v.6, no.150, Jan.16, 1931, p.502. (Published at 49 Deansgate, Manchester, England)

Abstract in the Textile Recorder, v.48, no.574, Jan.15, 1931, p.34, 37-38. (Published at 121, Deansgate, Manchester, England)

Services and Facilities

Brown, Lytle. Southern port development. Manufacturers Record, v.99, no.7, Feb.12, 1931, p.29-34. (Published at Commerce and Water Streets, Baltimore, Md.)

Warehouse facilities for cotton are mentioned in the descriptions of some of the ports.

China. Ministry of industry, commerce, and labour. Bureau of inspection and testing of commercial commodities. The Shanghai Bureau of inspection and testing of commercial commodities: organisation and functions. Shanghai, China. 1930. 33p. illus.

Chap.IV: The cotton testing department: p.15-18.

Annex: Regulations governing inspection and testing of cotton promulgated June 17, 1929: p.25-26.

UTILIZATION

Fiber, Yarn and Fabric Quality

Dawson, J.H. Short stapled cottons and high drafting. Textile Mercury, v.84, no.2182, Jan.9, 1931, p.33; no.2183, Jan.16, 1931, p.53. illus. (Published at 41, Spring Gardens, Manchester, England)

Grade values of cottons. International Cotton Bulletin, v.9, no.34, Jan.1931, p.276-277. (Published by the International Federation of Master Cotton Spinners' and Manufacturers' Associations, Manchester, England)

"We publish the following table by kind permission of Mr. W.H.Slater, of the Lancashire Statistical Service, Manchester, and it will be found by spinners to be of great use in helping them to select alternative growths of cotton for the spinning of different counts."

Huenlich, R. How to distinguish quickly cotton from linen. Melliand Textile Monthly, v.2, no.11, Feb. 1931, p.1480-1481. (Published by the Melliand, inc., Woolworth bldg., New York, N.Y.)

Mark, H. Faserstruktur und Farbevorgange. Melliand Textilberichte, v.11, no.9, Sept.1930, p.695-698. illus. (Published at Heidelberg, Germany)

"The geometric structure of cellulose fibers, indicated by X-ray investigation, suggests two possible theories of dyeing, viz. the dye can either attach itself merely to the surface of the micelles without penetrating their interior, or it can combine with any of the principal valencies in the cellulose chain with complete and homogeneous penetration of the fiber. X-ray photographs indicate that dyeing of cotton, viscose, and cuprammonium with all types of dyes has no influence on the fiber structure and supports the geometric or purely intermicellar theory of dyeing."- Melliand Textile Monthly, v.2, no.11, Feb.1931, p.1505-1506.

Merrill, Gilbert R. Single-process picking vs. two-process picking. *Melliand Textile Monthly*, v.2, no.11, Feb.1931, p.1427-1428. (Published by the Melliand, inc., Woolworth Bldg., New York, N.Y.)

"The purpose of this study was to compare the yarns spun from cottons passed through a single-process picker with those spun from the same cotton passed through two processes of picking."

Pennington, J.W. The testing of yarns and fabrics. *Textile Weekly*, v.6, no.151, Jan.23, 1931, p.532. (Published at 49 Deansgate, Manchester, England)
Address at meeting of Burnley Textile Society.
Includes discussion of uses of cotton.

Raman, B.V. Common faults in cotton fabrics. *Textile American*, v.55, no.2, Feb.1931, p.14-16,18. (Published at 440-442 Old South Bldg., Boston, Mass.)
Reprinted from the *Indian Textile Journal*.

Turner, A. James. Random and systematic selections of warp specimens in cloth sampling. Bombay, Indian central cotton committee, Technological laboratory, 1930. 21p. (Technological Bul. ser.B., no.11)

"This note discusses the relative merits of systematic and random methods of selecting warp specimens from a sample of fabric, when both selections are made on the Latin-square principle...A comparison of the methods of sampling is made in the case of three fabrics--two cottons and one linen; from each of these fabrics 256 warp specimens had been taken, 16 from each of 16 adjacent warp strips, and tested for strength; an analysis of the strength-values shows that for these three fabric samples, the random selection does not lead to any better results than the systematic, thus supporting the conclusion arrived at from purely general considerations. At the same time it is recognised that from a purely theoretical point of view the random method of selection retains its superiority, and that it is therefore better to adopt the random method unless there are cogent practical reasons for adopting the systematic method."-Summary.

Technology of Manufacture

The annual of the dyers and finishers. *Fibre and Fabric*, v.84, no.2399, Jan.24,1931, p.6-16. (Published at 465 Main st., Cambridge, Mass.)

The annual meeting of the National Association of Textile Dyers and Finishers, Boston, Jan.17,1931.

Appel, William D. Critical chemist and colorist. Analytical methods should give satisfactory results--tests for waterproofness of fabrics--color measurement and problems--controlling the "hand" of fabrics. American Wool and Cotton Reporter, v.45, no.6, Feb.5,1931, p.27-28,31. (Published by Frank P. Bennett & co., inc., 530 Atlantic ave., Boston, Mass.)

Paper read at meeting of American Association of Textile Chemists and Colorists.

Bennett, Geo. A. Technical efficiency in the cotton industry: the trend of the development in 1930. Textile Weekly, v.6, no.154, Feb.1931, p.607,609, 611,613,615. (Published at 49 Deansgate, Manchester, England)

From "Foreword" of booklet on "A Method of Predetermining Costs in Cotton Yarn Mills," issued by the Cost Section of the Cotton-Textile Institute.

Nasmith, Frank. Recent development in processing yarns. Textile Mercury, v.84, no.2185, Jan.30, 1931, p.99. illus. (Published at 41, Spring Gardens, Manchester, England)

A new high speed system of winding. Textile Mercury, v.84, no.2182, Jan.9,1931, p.31. illus. (Published at 41, Spring Gardens, Manchester, England)

Practical cotton weaving: Flying shuttles. Indian Textile Journal, v.41, no.483, Dec.31, 1931, p.125-126. (Published at Military Square, Medows st., Fort, Bombay, India)

Reding, H.W. Electrical developments. Textile applications that are intended to reduce cost of operation--higher speeds and more service--several developments of past year. American Wool and Cotton Reporter, v.45, no.5, Jan.29,1931, p.103,122-123. illus. (Published by Frank P. Bennett & co., Inc., 530 Atlantic ave., Boston, Mass.)

Schaellibaum, Rob. Effect of reversing direction of flats on cotton cards. Textile World, v.79, no.8, Feb.21,1931, p.901,927. (Published by Bragdon, Lord & Nagle co., inc., Tenth ave. at 36th st., New York, N.Y.)

Smolens, H.G. Some notes on peroxide bleaching. American Wool and Cotton Reporter, v.45, no.7, Feb.12,1931, p.13-14, 74. (Published by Frank P.

Bennett & co., 530 Atlantic ave., Boston, Mass.)

The use of concentrated peroxide solutions--two stages of practical bleaching--processes for wool, silk and cotton new ideas in machinery.

Spibey, H. The inclined mule-spindle ring frame: a consideration of the advantages claimed. Textile Weekly, v.6, no.152, Jan.30,1931, p.552. (Published at 49 Deansgate, Manchester, England)

Tatum, C.S. Better management brings reduction of cotton manufacturing costs. Textile World, v.79, no.6, Feb.7,1931, p.612-613. illus. (Published by Bragdon, Lord & Nagle co., Tenth ave. at 36th st., New York, N.Y.)

Discusses oil spraying, long-draft spinning, improvements in looms, etc.

Walsh, W.A. High drafting in cotton ring spinning. Textile American, v.55, no.2, Feb.1931, p.43-45. (Published at 440-442 Old South Bldg., Boston, Mass.)

"Abstract 'J.Tex.Inst.',xxl.2."

Wong Ling, N.S. General process for the application of synthetic indigo in China. Melliand Textile Monthly, v.2, no.11, Feb.1931, p.1465-1469. illus. (Published by the Melliand, inc., Woolworth Bldg., New York, N.Y.)

Includes description of cotton dyeing.

SEED AND SEED PRODUCTS

Barrow, E.R. Progress of cottonseed grading under Meloy plan. American Ginner and Cotton Oil Miller, v.8, no.6, Feb.1931, p.11-12,16. (Published at Little Rock, Ark.)

Address at meeting of Tri-State Oil Mill Superintendents, Dec.6,1930.

Harris, Clarence P. Rapid determination of total fat. Industrial and Engineering Chemistry, v.2, no.4, Oct.15,1930,p.410-413. (Published at Easton, Pa.)

Includes a description of the method used for determining fat content of cottonseed meal.

Kitchel,Lloyd. Cotton cellulose as a chemical raw material. Chemical Markets, v.27, no.6, Dec.1930, p.577-581. illus. (Published at 28 Renne ave., Pittsfield,Mass.)

Describes the purification plant of the Hercules Powder Company,Hopewell,Va., and the process of purifying cotton linters in use there.

Ma, Chieh, and Withrow, James R. A study of the official method of bleaching test of the American oil chemists' society. Industrial and Engineering Chemistry, v.2, no.4, Oct.15,1930,p.374-377. (Published at Easton,Pa.)

Cottonseed oil was used for this bleaching test.

U.S.Federal trade commission. Investigation of cottonseed industry. Washington, D.C., U.S.Govt. print.off., 1930. 3 parts. (U.S.71st Cong.2d sess. Senate Doc. 209)

LEGISLATION, REGULATION, AND ADJUDICATION

U.S.Congress. House. Committee on agriculture. Cotton classification. Investigation of cotton exchanges. Agricultural marketing act amendment. Cottonseed grading...Hearing...seventy-first congress, third session. January 26,27,28, and February 5,6,1931. Serial V. Washington, U.S.Govt.print.off.,1931. 71p.

U.S.Congress. Senate. Committee on agriculture and forestry. Cotton and grain futures act. Hearings... seventy-first congress, third session, on S.3420... S.4129...and S.5542. February 10 and 11,1931. Washington, U.S.Govt.print.off., 1931. 101p.

MISCELLANEOUS--GENERAL

Alabama-Mississippi-Louisiana division meets in Montgomery. Southern Textile Bulletin, v.39, no.23, Feb.5,1931,p.5-8,10,12-14,29-33. (Published by the Clark Publishing co., 18 West Fourth st., Charlotte,N.C.)

Proceedings of the meeting of the Alabama-Mississippi-Louisiana division of the Southern Textile Association, Montgomery, Ala., January 30, 1931.

Also in Textile World, v.79, no.7, Feb.14,1931, p.812-813.

American association of textile chemists and colorists. 1930 year book. New York, Howes Publishing co., 1930. 392p.

Reports of the research committee and sub-committees include fastness tests for dyed or printed cotton; outline of textile research; bibliography of textile chemistry and fiber technology; report on color standardization, including bibliography of color with special reference to textiles and dyes; report on shrinkage of textile material; and description of the "launder-ometer."

Association of southern agricultural workers. Proceedings of 31st annual convention, held in Jackson, Mississippi, February 5, 6, and 7, 1930. 423p.

Partial contents: Necessity for better correlation of research activities in the field of agriculture, with special reference to cotton growing, by B. Youngblood, p.28-38; Problems and progress in breeding cotton for yield and quality, by G.J. Wilds, p.204-208; Problems and progress of cotton breeding for yield and quality, by H.B. Brown, p.208-210; Correlation study of certain characters in upland cotton, by L.L. Ligon, p.210-223; Progress in cotton fiber studies, by R.W. Webb, p.247-251; Cotton-drying progress, by C.A. Bennett, p.252-255; Machinery for cotton production in the central south, by J.O. Smith, p.265-269; Point buying of cotton versus buying on quality basis, by G. L. Crawford, p.376-386; Onion thrips on seedling cotton, with a season's record of parthenogenetic development, by C.O. Eddy and W.H. Clark, p.422.

A stable cotton policy for Egypt. Near East and India, v.39, no.1027, Jan.22,1931, p.115; v.39, no.1028, Jan.29, 1931, p.139-140. (Published at 170, Strand, London, W.C.2, England)

Analysis of the "Memorandum on the Bases of a Stable Cotton Policy, submitted to the Egyptian Minister of Finance." (To be continued)

Tang, Chi Yu. An economic study of Chinese agriculture. [1924] 514p.

Thesis (Ph.D.)- Cornell university.

Chapter 25, "Cotton" discusses the history and development of cotton production, ginning, and compressing, marketing methods and practices, and cloth production and marketing: p.424-446.

Textile recorder. Textile recorder yearbook 1931. ed. by John Brooks. Manchester, England, John Heywood ltd., [1931] 898p. diagrs.

Contains statistics and discussions of the classification, production, and distribution of cotton, wool and silk; market terms; contracts; manufacture of cotton; testing of cloth; glossary of cotton fabrics; microscopy of the hairs and fibers of commerce; humidification and ventilation; lighting; fiber regain; moisture regain; etc.

C O T T O N R E P O R T S

ISSUED CURRENTLY BY
UNITED STATES GOVERNMENT DEPARTMENTS

U. S. Department of Agriculture. Bureau of Agricultural Economics.

Crop Reports (Summarized in Crops and Markets, which is issued monthly):
 May 20, 1931, revision of the report on acreage, yield per acre and production of cotton in 1930.
 July 8, 1931, report on the acreage of cotton in cultivation on July 1, 1931.
 Aug. 8, 1931, reports as of August 1 on condition and probable total ginnings of cotton.
 Sept. 8, 1931, reports as of September 1 on condition and probable total ginnings of cotton and an estimate of the acreage of cotton abandoned since July 1.
 Oct. 8, 1931, report as of October 1 on probable total ginnings of cotton.
 Nov. 9, 1931, report as of November 1 on probable total ginnings of cotton.
 Dec. 8, 1931, report as of December 1 (final) on estimated probable total ginnings of cotton, and estimated acreage of cotton abandoned since July 1.

Grade and Staple Reports:

Grade, Staple Length and Tenderability of Cotton Ginned in the United States: to be issued Apr.15, Oct.30, Nov.27, 1931, Jan. 8, Feb.12, Apr.15, 1932.

Market News Reports:

American Cotton Linters Price Report: issued Thursdays.
 Daily Official Report of the Designated Spot Cotton Markets.
 Staple Cotton Premiums: issued Saturday.
 Weekly Cotton Review: issued Saturdays.
 Weekly Cotton Market Bulletin: issued Fridays, in cooperation with the California Dept. of Agriculture.

World Cotton Prospects: issued monthly.

U. S. Department of Commerce. Bureau of the Census.

Activity in the Cotton Spinning Industry: issued monthly, about the 20th.
 Cotton Consumed, on Hand, Imported and Exported, and Active Cotton Spindles: issued monthly, about the 14th.
 Cottonseed Received, Crushed, and on Hand, and Cottonseed Products Manufactured, Shipped Out, on Hand and Exported: issued monthly, about the 12th.
 Report on Cotton Ginning: final report for 1930 crop to be issued Mar.20, 1931; reports on 1931 crop to be issued Aug.8,24, Sept.8, 23, Oct.8,26, Nov.9,21, Dec.8,21,1931, Jan.23 and Mar.21, 1932.
